

## Activité - Un arbre généalogique

You are going to create your own family tree in French! It is called “un arbre généalogique”. You will start with you and your brothers and sisters then show your parents and their brothers and sisters, and finally your grandparents. Follow the example shown in class and use the vocabulary list below to help you!

### Vocabulaire utile

#### Masculin

mon frère  
mon père  
mon oncle  
mon cousin  
mon grand-père  
mon beau-père  
mon beau-frère

#### Féminin

ma sœur  
ma mère  
ma tante  
ma cousine  
ma grand-mère  
ma belle-mère  
ma belle-sœur

### **Directives**

**Ever wish  
you'd read the  
instructions?**

1. Plan out your arbre généalogique in pencil on a separate paper first. Begin with you and your brothers and sisters at the bottom. Do your parents and their brothers and sisters next, and then just your grand-parents, not their brothers or sisters.

2. Using the magazines provided, cut out faces to represent the members of your family. The pictures must be age and gender appropriate, but they do not have to resemble you.
3. Once you have gathered the number of faces you need for your family tree, plan out your tree on the large paper provided. Write the name of each person, and then in French, their relation to you. For example, if you have a sister named Emily, you would write “**Ma sœur, Emily**” . Leave room at the top of your page for a title.
4. At the top of your page, include a title for your project. The title must be written in big, block or bubble, coloured letters, and it must be written in French.
5. All writing on your page must be in ink.
6. Reread your project and check it for proper spelling and accents.
7. Reread the checkbric once you have finished your arbre généalogique, and complete it honestly. Fix any components you may have missed.
8. Hand your project and the checkbric in to your teacher on the date below.
